USB cord
Inlet hose
User manual

Warnings & Safety precautions
To reduce risk of injury and property damage, user must read this entire guide before assembling, installing & operating the dispenser.
Failure to execute the instructions in this manual can cause personal injury or property damage.
When operating this pump, always exercise basic safety precautions, including the following:

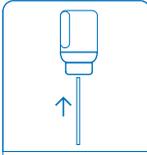

- Prior to use, this pump must be properly assembled and installed in accordance with this manual.
- This pump is intended for water dispensing only. Do NOT use other liquids. Do NOT use for other purposes. Never use any liquid in the dispenser other than known and microbiologically safe bottled water.
- Do NOT operate the dispenser in the presence of explosive fumes.
- The dispenser should be recharged from an earthed power source such as a plug socket.
- Do not use an extension cord with your water dispenser.
- Always grasp plug and pull straight out from the outlet. Never unplug by pulling on power cord.
- Do NOT use the dispenser if cord becomes frayed or otherwise damaged.
- To protect against electric shock, do NOT immerse cord, plug or any other part of the dispenser in water or other liquids.
- Ensure dispenser is unplugged prior to cleaning.
- All product has been inspected pumping before delivery, please ignore it if there is any residue water in product.

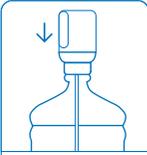

Specifications

Voltage: 5.0V DC
Power: 4W

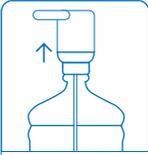

Installation

Fix Inlet Hose

Set Unit on Bottle

Open the spout

Ready for use

Operation

1. Please CHARGE to full capacity before first use.
2. Indicator light turns red during charging and turns green or off when charge is done.
3. Press the button to pump for 60s and press again to stop it.

Maintenance & Storage

1. Silicone Hose can be boiled for a few minutes before first use, and after every 2 months for better hygiene.
2. It's suggested that Silicone Hose shall be replaced after 6 months use to avoid any potential hygiene issue.
3. Make sure that there be NO water residue in the unit before any long-time storage.

A crossed-out wheellie bin symbol denotes that electrical and electronic equipment waste and batteries must not be disposed as an unsorted municipal waste but collected separately.

PROTECT THE ENVIRONMENT
This product contains a rechargeable Lithium-Ion battery. Do not dispose this product in normal household waste. Dispose of product at appropriate collection site. Caution: do NOT place in fire or mutilate battery packs as they may burst and release toxic materials.
